Check If Applicable: Rx Procedure None
 Cleancheck Procedure

Tools & Materials Needed:

- A. Regular room cleaning tools and materials
- B. Biohazard bags
- C. Personal protective equipment

Procedures:

I. Purpose of Extra Procedures for Incontinent Patients

- A. Sanitation and safety
- B. Odor control

II. Procedures for Bed and Bedding

- A. Put on gloves and proper personal protection equipment.
- B. Remove gross fecal matter and place in a closed bag, treating as infectious waste.
 - 1. If blood is visually present or expected, observe procedures for the blood borne pathogen standard.
- C. Fold bedding to cover contamination.
 - 1. Do not allow bedding to wave in the air, possibly spreading bacteria.
- D. Clean and disinfect the mattress padding and the mattress cover.
- E. Weekly wipe down and disinfect the mattress, as well as the seams.

III. Extra Equipment in Room

- A. Diaper container
 - 1. Tie and remove the disposable liner bag.
 - 2. Place into appropriate bag on cleaning cart.
 - 3. Spray container inside and out with a cleaner disinfectant.
 - 4. Wipe dry with a clean cloth.
 - 5. Install new liner.

IV. Procedures for Odor Control

A. Spread of fecal material

1. Clean with a disinfectant anything the patient may have touched. These include:
 - a. Handrails
 - b. TV remote
 - c. Over bed table
 - d. Light switches

B. Hard floor care

1. Clean up gross contamination as soon as found.
 - a. Wear proper protective gear.
 - b. Clean and disinfect area with a neutral disinfectant.
2. Daily dust mop and damp mop entire floor using either the spray down/mop up method or the double bucket method.

C. Carpet care

1. Treat spots as soon as found.
 - a. Remove gross contamination.
 - b. Treat spot with a carpet sanitizer.
 - c. Extract or blot with a clean cloth.
2. Weekly carpet treatment
 - a. Pre-spray carpet with a sanitizer.
 - b. Extract using clear water only in the extractor.
